SEPTEMBER 2016

MARIA KOVADI

Previously a connoisseur's secret, Maria Kovadi Fine Jewellery was presented to a wider audience at Baselworld 2016. Italian craftsmanship translates the poetry of the designer's vision into innovative, playful, extravagant and enchanting creations, which come made-to-order or in a limited edition.

Transporting you to the magical world of beautiful creatures, the Animali collection explores the charm and the magic of the animal world in an ironic way, with a modern take on the classic creatures. The spirit, mystery and magic captured in the stories behind each creation hide a captivating combination of modern narratives with a fairytale world. All materials and jewels are carefully sourced and selected to bring to life the stories told through the creations.

One-of-a-kind pieces created with this ancient Roman mosaic technique incorporate both innovative and classic elements, which are beautifully handcrafted with approximately 2500 little mosaic pieces and 35 shades of colour.
